What settings have the application?

Profiles

The application lets you easily select between the profiles that you have set up on the website. You find your profiles on the icon at the top to the left. It's your profiles that control the alarm you will receive and they depends on what rules you have set.

Your active profile is displayed with a tick. To change the profile you have to hold your finger pressed on the profile you want. If you want to see what rules that belongs to a profile, click on the arrow to the right.

How do I change the language?

If you want to change the language in the application, you do it at the top to the right. Chose the language you want to use.

How do I change user?

To change the user in the application you go at the top to the right. Go to the tab Change user and enter the new e-mail address and password. The application will load and the new user can start using the Bird Alarm application.

Push message

Your phone will be sending out push notifications. If you don´t want push notifications when a new message is received, your settings in the phone must be changed.
